

Raise Funds for your school and get your students using Canvastic at home!

As a school licensee for Canvastic your school qualifies to participate in this fund raising program. It is easy and it could make your school some much needed cash. The school makes \$10 for every sale!

Parents often ask about useful software at spring conferences and Canvastic would be a great suggestion.

Here's how it works:

- We provide you with an 8.5 x 11 inch black and white flyer original that you can easily duplicate and send home. See the attached example. If you'd like it customized or you want to print it on school letterhead, just let us know.
- We provide you with an Excel spreadsheet for you to keep track of sales.
- The students return the flyer with check attached for \$29 to you. That is \$10 off the regular single user price for students and teachers and there is free shipping.
- You tell us the number of CDs needed.
- You can send the checks directly to use or have them made out to the school and send us one check. It is your choice. We would prefer one order but if you have stragglers they can be sent in later.
- We will send you the CDs and installation instructions packaged in large, white, hard to lose envelopes for you to distribute. All CDs will be pre-registered and ready to install
- You keep \$10 for every sale to use in any way for the school! \$19 for each sale comes to Canvastic LLC

Things to keep in mind:

- If anyone is unhappy with Canvastic or it doesn't run on their computer for any reason, they can return the disk to you. We will issue a refund check for \$29 directly to them. The school will just send back the disk and the \$10.
- These sorts of programs are only successful when the students hear all about it at assemblies, on the morning announcements and/or in class. Be sure they know how to order and when. Talk it up!

Interested? We thought so. This is an easy way to get the students Canvastic for home use and earn money for the school. And it can be repeated every spring since there are always new students coming up that will want it. Call, write or email with your acceptance and we will get you started.

**Get the Software Your Child Uses at
School!
And Help Our School Financially at the
Same Time!**

Dear Parents,

You can have the same publishing software your child uses at school for projects on your home computer. And it will help raise funds for your school. Canvastic is the drawing, writing, and presenting software we use to help your child reach academic standards. It can be used by students from Kindergarten up because it adjusts to any level. You might like it as well!

Canvastic normally costs \$39 for a single computer license for students and teachers but you can obtain it for a limited time through this program for \$29. Our school will keep \$10 for every sale.

Canvastic runs on just about any Windows 2000, Windows XP, or Macintosh OS X computer and it is fully guaranteed. If it doesn't work for you, you will receive a full refund.

If you are interested, just complete the form below and attach a check made out to SCHOOL NAME HERE.
