New York City Screen Saver
version 3.0 Demo

About this screen saver:

Whether you are currently living in New York or just want to relive your time there, this collection of 101 color and black & white photographs will offer you the opportunity to reminisce about one of the greatest cities on Earth. All images are either views of Manhattan or from Manhattan and include the New York Public Library at 5th Avenue, Grand Central Terminal, various skyline views, and a large dose of Central Park. This screen saver is available for Macintosh OS X and Windows 98/ME/2000/XP.

How to install:

To install this screen saver, double click on the screen saver installer icon and then choose "Install". You may also preview this demo first by choosing the "Run" button.

How to uninstall:

To uninstall this screensaver, go to the Control Panel and choose "Add/Remove Programs", find the screensaver and click on the "Change/Remove" button.

Purchasing the full version of the screensaver:

The version you just downloaded contains all of the images in the full version of the screensaver. The first 5 are high quality images which are representative of how the others will appear in the full version. However, the other 96 pictures are all low-resolution versions with text over the images. Purchasing the full version will give you high-quality images without the text. The full version is currently priced at only $9.99 (USD), which comes out to less than 10 cents per picture! To purchase the screensaver, please visit
