

# IMPORTANT INFORMATION

(Responsive Web Page Generator v2.5 )  
DEMO

---

## 1

After you have installed RESPONSIVE WEB PAGE GENERATOR and generated your first project, then you need to open the "RUN-ME.exe" file located in the same folder as your project files. This will copy the "Home" and "Contact Us" images from the "images" folder to all the template folders.

## 2

If you like to buy this program after testing, you can do this by visiting our webpage at [www.regnsoft.com](http://www.regnsoft.com) or go directly to the cart page by clicking this link: [Buy Responsive Web Page Generator](#)

## Dear User

---

Thank you for downloading, using and testing our Software.

**Thank you 😊**
