

### Step 1 Mort Dive Screen

This screen records the details of the dive and site location, it also links to the Dive Fish Id screen.

The screenshot shows a software window titled 'Mort'. The window has a blue title bar with standard minimize, maximize, and close buttons. The main content area is light beige and contains several input fields: 'Job No MD-' followed by a yellow highlighted box, 'Dive Date' with a date picker set to '21/05/2006', and 'Site Name' with a text input field and a question mark icon. Below these is a 'Total Morts' field with the value '0' and a yellow highlight. A section titled 'Mortalities:' contains a table with columns: 'Dive No', 'Fish ID', 'Diver', 'Good Fish', 'Old', and 'Bent'. The table is currently empty. To the right of the table are three buttons: 'Add', 'Edit', and 'Delete'. Below the table is a scroll bar and a '(0)' indicator. At the bottom of the window is a row of buttons: 'Save', 'Find', 'Delete', 'Reset', 'Print', 'Refresh', 'Cancel', 'Help', and 'Import'. Navigation arrows are also present below the scroll bar.

### Step 2 Mort Dive Fish Id Screen

The screens links the Mort Site Screen to the Fish Id that was dived on

This screen allows you to enter many different mortality categories such as caught in the net, specific fish disease deaths, culled and other reasons for mortalities.

You can also enter in Net Scores on the conditions of the nets.
